

CHRIS HANI DISTRICT MUNICIPALITY

EXTRACT OUT OF MINUTES OF ORDINARY COUNCIL MEETING HELD ON 22 MARCH 2017.

C536. REPORT ON PROPOSED DRAFT BUDGET FOR 2017/2018 to 2019/2020 MTREF

Purpose:

To request Council to approve the proposed draft operating and capital budget for 2017/2018 to 2019/2020.

Authority:

Chris Hani District Municipality Council.

Legislative framework:

Municipal Finance Management Act 56 of 2003;
Municipal Budget and Reporting Regulations; and
National Treasury MFMA Budget Circulars.

Background:

In terms of the MFMA, section 16, a municipality must approve the annual budget tabled by the Mayor before Council at least 90 days before the start of the budget year in the prescribed budget format.

The draft budget recognises the funding streams of Council that have remained the same as in the previous budget year being mainly service charges for water and sanitation services and grant funding from both National treasury provincial state departments. Other income in addition to above is investment income and sundry revenue that also includes the output VAT on conditional grants.

The expenditure of the municipality is as a result of employee related costs and councillors allowances, expenditure on operating and capital grants, transfers and grants to the municipal entity and adopted schools, Contracted services

and other expenditure that includes general expenses, debt impairment and also depreciation on property plant and equipment.

Exposition of facts:

The draft budget for the 2017 / 2018 MTREF period, started with a process of considering the issues that were raised in the strategic session that influenced the current IDP, taking into account allowable increases (parameters) of 6.1% for the budget year and 5.9 and 5.8 % for the two outer years as determined by National Treasury in circular 85 dated 09 December 2016.

The salaries budget recognises current salary levels and potential increases for cost of living and general annual increase that will be effected in July 2017. All Directorates were requested to provide further input to the operational budget based on their needs and also taking into account the constraints presented by the limited revenue sources.

Provincial allocations (including agency functions) made/expected to the district were confirmed for current and outer budget years. No budget provision has been made in instances where current/outer year allocations were not confirmed by the Provincial State departments. This information will be included in the final budget in May 2017, if such budget provisions are received. The draft budget proposes an increase in the water & sanitation tariffs as outlined under Consumptive Sanitation Tariffs tables.

All budget related policies will be reviewed and undergo consultation process before the final adoption of the Budget & IDP in May 2017 with the exclusion of the Indigent Policy. There is also a need for the Council to consider the new policy which is the Infrastructure Supply Chain Management Policy. The budget of the Chris Hani Development Agency for the current financial year has not been presented to Council for approval and as such the previous financial year's allocation has been maintained in this draft budget, including the bursary allocation.

The outcome of the draft budget process was a deficit of non-cash operating deficit of R337 million after contribution to the non-cash items like depreciation on assets and debt impairment. The deficit should be closely monitored by the

municipality as it cannot afford to continue in this state as this will negatively affect infrastructure improvements.

The capital programmes funded from capital grants were budgeted to the extent of funds allocated by the National departments and R97 million from municipal reserves. The total municipal deficit when taking into account the funding of the municipal movable assets and municipal building amounts to R434 million.

Surplus/(Deficit)	(450 216)	(505 101)	–	(434 692)	(448 913)	(514 402)

The table above reflects a budgeted deficit of R434 million which is a decrease of R70, 4 million in the budgeted deficit when compared to the second adjustment budget, which a 14% decrease in the budgeted deficit. The budgeted deficit is however not improving when looking at revenue and expenditure for the outer years.

PROPOSED 2017/2018 MTREF DRAFT BUDGET:

The following tables (table 2 to 6) illustrate the anticipated proposed revenue and expenditure streams.

Table 2: 2017/2018 - Operating Revenue: Tables A1; R933,841 million

Chris Hani District Municipality Operating Revenue by Source Draft Budget 2017/18 MTREF					
Description	Current Year 2016/17		2017/18 Medium Term Revenue & Expenditure Framework

Total Revenue (excluding capital transfers and contributions)	893 554	914 248	933 841	979 913	988 258

Operating revenue has increased by 2% (R19.5 million) to 933.8 million in the current financial year, significantly influenced by the increases in Service charges for Water and Sanitation 6%, other revenue by 6% and Investment Revenue by 17%. Operating revenue reflects 5% and 1% increase in the outer years and the 1% increase in 2019/20 budget year was influenced by a decrease in transfers recognised-operational, whilst other revenue sources were budgeted in line with the CPIX increases.

Figure 1: 2017/2018 proposed – Draft Operating Revenue

Grants and Subsidies represent the combination of all grants and subsidies utilised to fund the operating budget including provincial agency grants. This also includes the Equitable Share, Finance Management Grant (FMG), and allowable portion of the MIG to fund the Project Management Unit (PMU) and deliver VIP toilet facilities and Extended Public Works Programme, etc.

Investment income comprises anticipated interest on surplus funds invested, that are not immediately required for service delivery. Service charges are estimated water and sanitation revenue from the WSAWSP function undertaken by the District municipality.

Other Income comprises the anticipated sundry income such as administration fees on salary deductions, sale of tender documents etc. and includes the input VAT realised on spending of conditional grants.

Total Expenditure	1 214 243	1 299 122	1 271 533	1 326 006	1 393 672

Operating expenditure has decreased by 2% (R27,6 million) when compared to the second adjustment budget from R1,299 billion to R1,271 billion.

The decrease was influenced by increases and decreases in the following expenditure items:

Employee related costs and Councillors Allowances increased by 7%;

Water bulk purchases increased by 8%;

Contracted Services decreased by 48%; and

Other Expenditure decreased by 13%.

Other expenditure includes MIG operational expenditure, equitable share funded IDP programmes, operating conditional grants expenditure and also repairs and maintenance on water services function and municipal buildings.

Figure 2: 2017/ 2018 proposed Draft – Operating expenditure:

The expenditure to the agency function of roads carried on behalf of the Department of Roads and Public Works is budgeted for under the operating expenditure in line with the operating revenue.

TOTAL	113 288	85 250	28 038

The above table reflects a decrease in equitable share programmes by 25% when compared to the adjusted budget. The draft budget has taken into account programmes that will be funded by other sector departments and programmes that are already catered for under general expenses.

The decrease was also influenced by the deficit that the municipality is faced and therefore justifying a need to cut on some expenditure items and unfunded mandates.

Table 5: EPWP projects 2017/18 MTREF

EPWP PROJECTS 2017/18 BUDGET YEAR

Integrated Planning & Development	3 000	3 620	-620
TOTAL	7 797	10 037	-2 240

EPWP operating revenue has increased by 1% (R 2.2 million), from R7,7 million to R10 million in the coming year. The increase was influenced by an increase in the allocation for the coming financial year. The outer years are not provided for as the allocation for EPWP is provided for one financial year.

MIG, RBIG and WSIG are conditional grants allocated in the DORB to specified approved projects. Provincial treasury/COGTA and DHS unblocking are also conditional grants received from the provincial state departments for specified projects.

The 10% overall decrease in capital grant funding was influenced by the following grants:

MIG increased by 24%;

RBIG increased by 1%;

WSIG decreased by 23%;

COGTA decreased by 54%; and

There was no provision for ACIP and DHS Unblocking in the coming financial year.

MIG allocation was adjusted for 5% funding of operating expenses of the Project Management Unit (PMU) and for the operating projects to fund VIP toilets.

CAPITAL EXPENDITURE R611,2 million

The capital expenditure is made up of the R514 million from conditional grants and R97 million from Asset Financing Reserves. The R97 million is meant to fund municipal assets and CHDM village. **The annexure for capital projects per grant is attached as Annexure “C”.**

The above tables reflect an increase of 6% on water related tariffs. For sanitation tariffs, the municipality is proposing the use of consumptive tariffs, at a rate of 70% of water usage per household or consumer. The detailed list of tariffs was attached within the executive summary.

Financial Implications:

Increase in uncollectable consumer service debtors, thus increasing the provision for debt impairment;

Decrease in grant funding, thus decreasing projects funded from conditional grants; and

The budget deficit that is limited to non-cash items and assets that are funded from municipal reserves.

Other Implications:

The funding and balancing of the budget needs to be monitored closely moving forward into future years; and

Strict implementation of cost containment measures to improve the deficit budget.

Other parties consulted:

All departments within Chris Hani District Municipality.

National Treasury budget circulars.

Resolution:

It was resolved that:

1) The draft operating and capital budget for 2017/18 MTREF **be approved** as reflected in table A1.

2) The operating expenditure of R1, 271 billion and operating revenue of R933 million **be approved** as reflected in Table A4.

3) The capital expenditure of R611 million and capital revenue of R514 **million be approved** as reflected in Table A5.

4) Council **approve** of the municipality's annual budget, and specifically appropriating the amount for the different votes, and for single year and multi-year capital expenditure as reflected in Tables A2 and A3.

5) Council **approve** the tariff increases as 6% for Municipal Health tariffs, water and sanitation tariffs **be calculated** as a step tariff for 70% of water consumption.

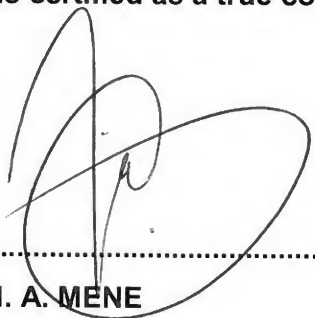

6) Council **confirm** the indigent policy with no amendments.

7) Council **note** the following budget related policies for reviewal and consultation processes:

- a. Debt and Credit Control Policy with amendments;
- b. Investment Policy amendments;
